**Zoom Download Instructions – Apple IOS (iPhone and iPad)**

Steps for Download

1. Go to the App Store on your iPhone or iPad

2. Tap on the magnifying glass and type "Zoom" into the search field.
    I.

3. Tap the "Get" button next to Zoom Cloud Meetings and then enter your password or use touch ID to download the Zoom App to your phone.

    I.

4. Tap the "Open" button

    I.
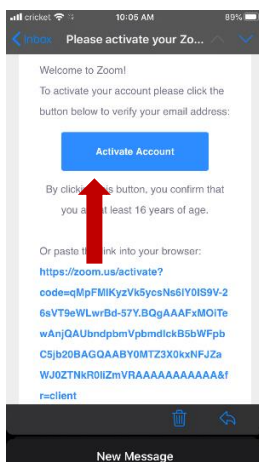

5. The Zoom App will launch. Click on "Sign Up"

    I.

6. Enter an email address (use one connected to your iPhone/iPad), first and last name (note: If you are concerned about security use an anonymous email and aliases), and check to circle to agree to the Terms and Service

    I.

7. A message will be sent to your email. Go to your email on your iPhone/iPad. Open the email from Zoom. Tap "Activate Account"

    I.

8. The message will open your Browser. Select and memorize a password. Tap "Save Password"
    I.

9. A new screen will pen to invite others. Tap "Skip this Step"

    I.

10. Go to your Home Screen, find the Zoom App and tap it.

    I.

You will now be able to join meetings from your iPhone that you have RSVPd for or that have received the link for.
